## Contextualising

Comprehensible input

A man with a beard, wearing a denim jacket and brown pants, is sitting in a black airport-style chair. He is looking out a large window at an airplane flying in the sky. His feet are propped up on a black suitcase. The scene is brightly lit, suggesting a sunny day. The text "A Moodle quiz: *Travel stories*" is overlaid on the image.

A Moodle quiz:  
*Travel stories*

## Travel collocations

Match a **verb** and a **phrase** to make travel collocations. For example " buy gifts"

A corkboard with several sticky notes. The notes are arranged as follows:

- Yellow notes (Verbs): buy, read, pack, rent, sunbathe, take, book
- Green notes (Phrases): gifts, a flight, a guidebook, beach, photos, an apartment

A hand is pointing at the 'gifts' note. The interface includes a hand icon in the top right corner and a share icon in the bottom right corner.

## Travel collocations

Decide if you do these actions before or during the trip or never do this. For example: "I usually read a guidebook before the trip" "I never read a guidebook", "I always buy gifts for my parents when I go on a trip"

Before the trip	During the trip	I never do this
buy travel insurance	pack a suitcase	read a guidebook
rent an apartment	book a flight	buy gifts
go hiking	try new food	take pictures
	sunbathe on the beach	

Now use these phrases to make a recording:

audiorecorder

Press a button below to record your answer.
