Welcome to Moodle!

Martin Dougiamas

Thursday, November 15, 2001, 10:11 PM

Well, at last, moodle.com is running Moodle. There's still a big TODO list, but it's definitely gotten to the point where it's useful enough to run a site like this one.

There's a lot of construction still going on, so mind your head!

Moodle is a course management system (CMS) - a software package designed to help educators create quality online courses. Such e-learning systems are sometimes also called Learning Management Systems (LMS) or Virtual Learning Environments (VLE). One of the main advantages of Moodle over other systems is a strong grounding in [social constructionist pedagogy](#).

Moodle is [Open Source](#) software, which means you are free to [download it](#), [use it](#), [modify it](#) and even distribute it (under the terms of the [GNU General Public License](#)). Moodle runs without modification on Unix, Linux, Windows, Mac OS X, Netware and any other system that supports [PHP](#), including most webhost providers. Data is stored in a single database: [MySQL](#) and

Tracker

Discovered by Sander Cotten

Introduction

Welcome to the Moodle Tracker!

This is where we record and manage all issues related to Moodle and related systems.

It's not just for developers! :-)

All users should use this system to report problems or new ideas for Moodle and help us make it better.

Login

To do anything useful here, you'll need to [create an account](#) and then [login](#).

Reporting an issue

If you want to report something to us, you should [search the tracker](#) first to make sure it's not already in here. If you find something, you should **vote** for it, or **add a comment**!

If you can't find anything, then choose one of the following to create a new issue:

-  [Report a bug in Moodle](#)
-  [Suggest an improvement](#)

Data protection

If you wish to delete your account please write to privacy@moodle.com. We will process your request and all the contributions linkable to you will be anonymized

Moodle is the world's most customisable and trusted online learning solution. The heart of our ecosystem is Moodle LMS, the open source learning management system used by hundreds of millions of learners worldwide. Developed in conjunction with our community, Moodle LMS is complemented by Moodle Workplace, Moodle Apps, MoodleCloud and a network of Certified Service Providers delivering expertise in hosting, customisations, support and training. We educate our community to create effective online learning experiences through Moodle Academy, the learning hub for the global Moodle community, and (soon to be launched) MoodleNet, a place to share and curate open educational resources. Collectively, we empower educators to improve our world.
